

FLUTTUA BED

Design Daniele Lago - 2004

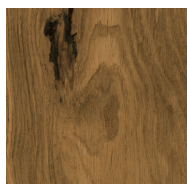

Il primo letto sospeso al mondo.

Fluttua sfida la forza di gravità, dando forma all'emozione di dormire galleggiando nell'aria. Un unico sostegno centrale e regolabile in altezza, sostiene il telaio, attaccato a parete tramite un fissaggio studiato: l'innovativo pianale in HPL risulta così impercettibile alla vista, creando un magico effetto di sospensione del letto.
